Main Features | Eurocryor Fish solution

Fishmonger

MAIN FEATURES

The **Stili** family is characterized by extreme **flexibility** that allows to **combine aesthetic, shape** and **preservation** characteristics, creating the unique solution tailored to each store, composing the internal layout with different preservation solution, from cold to hot, calibrating the needs of the different products to combine everything in **a single composition** without central end thickness and **without interruptions**.

Starting from this total flexibility, the fish cabinet can be organized with different area separating fresh fish, mussels, and gastronomy with an elegant internal full-height glass partitions.

Main Features | Decorate the shop

The common idea of the fish counter is a simple aesthetic counter in stainless steel. Born from the ***Stili*** range, the Eurocryor **fish counter** can be **customized** in many different ways, to characterize and enhance the fish shop. From stainless steel legs to straight and simple aesthetics, without limits of solutions as regards color, finishing and material.
